Keeping Children Safe Online - Lessons 1-3

Jessie & Friends helps children aged 4-7 learn how to stay safe online. The key message is simple: if anything online makes a child feel worried, scared or upset, they should tell a trusted adult.

What Children Learn

• Being kind online • Asking permission before sharing photos • Recognising unsafe situations • Understanding safe online behaviour • Knowing who to talk to for help

How Parents Can Help

Take an interest in your child's apps and games, talk regularly about online experiences, identify trusted adults, supervise internet use, and use SafeSearch and parental controls.
